EFFECTIVE	1/09	REVIEWED	00/00/0000	REVISED	00/00/0000	

It is the policy of SkillsUSA Nevada to provide results of student performance in state contests. The minimum standard to follow shall be to provide contestant rankings showing points earned compared to points possible. The rankings shall be made available to chapters as soon as possible after each state conference and shall be disclosed only to advisors. The rankings will show only contest numbers with the points earned. Student names will be disclosed only on request.

Except in the case where a contestant number is misaligned with contest results, the results of the rankings as posted are final and may not be challenged. Any challenge to a contest that may impact the results must be filed in accordance with the established grievance policy.
